

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

remember the boston tea party ? well we the little people are getting tired of being taxed to death. things are being made cheaper but costing more, and the goverment is taxing us way to much and spending that money over sea when we need that money here in the USA or spending millions on air planes that set and collect dust. if it was left up to me you all would be lined up against the wall and stoned for the reckless way you all are running the goverment. one day you all will see a up riseing against the goverment and we the people will take back our land and goverment and start a newer and better goverment. i am sorry to say that i may not be alive to see it but who knows maybe i will. THIS SHIT MUST STOP...!!!!!! Congratulations on your appointment to Chair the FCC. In your new leadership role, I urge you to support the "Fair Share Plan" as a solution to current concerns with the Universal Service Fund (USF). The Fair Share Plan will keep the USF fair, ensuring that consumers like me do not pay the same rate into the USF as big businesses, regardless of how little I may use long distance.

The Keep USF Fair Coalition submitted the Fair Share Plan to the FCC on January 31, 2005. It expands who pays into the USF so that other technologies - not just phones - pay into the system. The Fair Share Plan collects the USF using a combination numbers- and revenue-based plan. This keeps the system fair, equitable and non-discriminatory.

Under the flat fee or numbers-based plan you are considering, people like me who make few long distance calls would pay the same as people or businesses that make many calls. I believe it would be unfair to charge low-volume and residential customers the same fees as high-volume residential or business customers.

I urge you to keep the USF fair, and adopt the Fair Share Plan. Thank you, and best of luck in your new position.

cc: Marlene Dortch, Secretary

Sincerely,

richard allan
